## Gratitude

Dear Colleague,  
Greetings from New Delhi.

Let me take this opportunity to express my gratitude for your continued support. Your gracious patronage has made all the difference.

The grand success of NZ ASICON CME, 2009 on Complications of Laparoscopic and Open surgery on January 23-25, 2009 at AIIMS auditorium, New Delhi has further humbled us. On January 23, 2009, around 150 postgraduates and guests attended the **“Master Class of Postgraduates”**. The postgraduates presented the cases in the presence of eminent national teachers like Dr. Arvind Kumar, Dr. Sandeep Guleria, Dr. Chintamani, Dr. P.N. Aggarwal, Dr. Anand Kumar, Dr. Pawanindra Lal, Dr. Anurag Srivastava, Dr. Sudhir Jain, Dr. Sanjay Gupta, Dr. K.N. Srivastava, Dr. Vimal Bhandari, Dr. A.K. Singh Rana, Dr. Rajesh Shah. **Surgical Quiz** was nicely conducted by Dr. Chintamani. Team from Safdarjung Hospital won the 1st prize.

Inauguration was marked by Saraswati Vandana and lamp lighting by Dr. K. C. Mahajan, Dr. Sandip Mukerjee, Dr. S. B. Aggarwal, Dr. V.K. Malik, Dr. R. P. Srivastava, Dr. T.K. Chattopadhyaya, Dr. Arvind Kumar and Dr. Sandeep Guleria.

On January 24-25, 2009, a total of 780 guests attended the lectures of highly renowned galaxy of 88 speakers. All the speakers, a conglomerate of surgeons, gynaecologists and urologists, presented their work on the **single theme of “Prevention and Management of Complications of Laparoscopic and Open Surgery”**. Every

session of the academic feast was completed with clock-wise precision (every lecture of 15 min.) and excellent audience participation. **‘Biography of the Speakers’** was distributed to all the guests. All the lectures including the keynote addresses have been recorded (both the Powerpoint presentations and Audio visuals). **Two DVDs** have been sent to all the participating guests. We are thankful to Trumed Communications, Suture India and Zephyr Express for excellent work done.

Prof. Arvind Kumar and Prof. Sandeep

Guleria elegantly gave all the attention to details in the arrangements at AIIMS auditorium, exhibition, parking, dinner etc. I am highly obliged.

Corporate support of 30 companies is highly acknowledged.

Thanks once again,

With Warmest Regards,

**Dr. Parveen Bhatia**

Secretary, ASI, Delhi State Chapter

### LAPAROSCOPY

I always used to wonder why God has created holes only nine !!  
Had there been many, it would have been fine.

We would have specialists many  
Like “upper” “middle” and “lower” sunny.

Next time you make a body O God !  
Better change this model, which is outdated and odd!!

Make as many holes as possible !  
And cover them with “Caps” disposable!!

Let the Pts come to us smiling.  
Take away from us the drudgery of drilling.  
Remove the Cap and put the Scope!  
Let him be the commoner, or the Pope !!

You may be thinking it is pure imaginary  
Take it from me, this is going to be the future of Lap surgery.

**Composed by: Dr. A. Y. Chary, Consultant Laparoscopic Surgeon, Hyderabad, Governing Council Member, ASI, Former Director, Medical Education, Andhra Pradesh**

### Dr. Chary's NOTES

Are you scared of the Scar ?  
Want to be a rocking Star !!  
Are you going to be a model ?  
With all attention “Central” and “Nodal”

Here we are specialists in NOTES  
To explore you “Naturally”  
Either “Vaginal” or “ Orally”  
Let it be a gall bladder or Appendix !!  
Here we are and ready to “Fix’

Passing through areas forbidden  
Looking at organs which are hidden.  
There won't be any parts “private”  
Allowing us with all impunity to Invade

What a sight it will be !!!

The Appendix coming out of the “Mouth”  
And the gallbladder peeping from the “South”

That is NOTES for you to note my friend  
Give a thought and dote about the new trend

Will it be the future procedure to promote  
Or it becoming popular still remains remote!!

**“What you leave behind is not what is engraved in stone monuments,  
but what is woven into the lives of others.” - Pericles**

A symbol of excellence, commitment and dedicated patient care, established in July, 2001. The vision is borne out of a single-minded focus on providing world class minimally invasive surgery to patients in many super-speciality areas. All under one roof. No matter whether it's medical equipment, care facilities, or international associations... the perspective is global.
